

# MOTHER

music: Gianni Giannotti  
lyric: Federica Lorusso  
arr.: Vito Di Modugno

Mother

In all of my past

The first smile, everytime I was lost

Mother

I'll try to behave

If you can, please hear what I say

Don't you see, in all the places I go,

All the troubles and dangers I find,

When it's time to grow

In a lullaby I play, in the music that I

make

Mother, mother mother...

My thought is all for you

Mother

Sometimes I was wrong

When you grow

You want to cross the road alone

Mother

The first and last

I wish to have

That hand I refused in the past

Don't you see? in all the people I love

All the moments I look at the sky

and I feel so small

The music that I play, the words that now

I'm saying

Mother, mother, mother

My thought is all for you ...

This song is all for you
